Capabilities

Many RN and RAF capabilities have reduced by 20–30% as a result of cuts made in the 2010 Strategic Defence and Security Review. Some cuts, such as maritime patrol aircraft and NBC reconnaissance, reduce the overall flexibility of British forces whilst increasing their dependence on NATO and multinational partners. A new Joint Forces Command has taken over strategic intelligence, special forces and other joint strategic capabilities. The Army 2020 programme will likewise reduce the regular British Army's overall capability by 20–30% by 2018 and will greatly increase dependence on reserves. It does, however, retain many of the capabilities specially developed for Iraq and Afghanistan. Although the government has stated an aspiration to rebuild capability after 2015, it is not clear that this can be afforded. Indeed, unless the UK economy improves, sustaining existing capability may prove problematic, particularly if equipment or personnel costs increase beyond current planning assumptions. The regeneration of a capability for contingency operations is planned as force levels in Afghanistan reduce. This has begun with amphibious, air-assault and naval-reaction forces. In the longer term, although the size of the forces has reduced, MoD is still funding some ambitious modernisation programmes for all three services. Overall, the UK armed forces maintain a high standard of training, but the combination of a redundancy programme and new constraints on pay, allowances and pensions could trigger an outflow of experienced staff.

ACTIVE 165,650 (Army 96,850, Navy 32,000 Air 36,800)

RESERVE 80,550 (Regular Reserve £51,000 (incl 4,850 RAF); Volunteer Reserve 30,550 (Army 26,650; Navy 2,550; Air 1,350)

Includes both trained and those currently under training within the Regular Forces, excluding university cadet units.

Cyber

The Office of Cyber Security & Information Assurance works with the Cyber Security Operations Centre and ministries and agencies to implement cyber-security programmes. CSOC is hosted by GCHQ and was also established in 2009. The UK's October 2010 Strategic Defence and Security Review said that the country would 'establish a transformative national programme to protect ourselves in cyber space'. This 'National Cyber Security Programme' is supported by some £650m – with programme management by OSCIA – and led to a new Cyber Security Strategy, published in November 2011. A UK Defence Cyber Operations Group was set up in 2011 to place 'cyber at the heart of defence operations, doctrine and training'. This group was transferred to Joint Forces Command on this formation's establishment in April 2012.

DEPLOYMENT
